“ I am saddened by the loss of my friend. We spent so much time together during high school and shared an apartment during college. We shared driving to classes in my old 55 chevy. One day we heard a knock on the door, and Freddy arrived in a new bright blue Chevy II. Dave was so happy and proud. Another day, he came back from class and said I met the most beautiful girl (Carol) and going to ask her out. I remember the times we would each take \$5 and go grocery shopping. I think this helped us learn the value of a dollar. After college we went our own ways. While living in Columbus, he called and invited me to vacation in his condo in Ft. Myers. That is how I got to Ft. Myers. Each time he came to visit we spent time together, talking about our lives. In fact, we made a pact, that when either of us died, not to worry about attending a funeral. This was because we "gave our flowers and respect" while we were living. Like my other good friend Sam indicated, I could write a book about the times I spent with Dave. Carol knows many of our stories together, and I pray for her and family in this great loss. “ Space would not permit me to share all the memories that Dave and I made over the years. We first met in third grade at Deering Elementary and went all the way through college together. Dave was a special friend and loved what ever sport was in season. I know he loved them because he would have to walk home many nights after practice. It was along dark walk down Rankins Creek at night in all kinds of weather. He and his family have always been so special to me and my family over the years. I will miss you "BUD".

“ We knew Dave as students at Coal Grove many years ago, but we became reacquainted a couple years ago when we moved to Ironton and became neighbors. He welcomed us into the neighborhood and made us feel at home. We'll miss our front yard visits. Dave was a good man with a good heart. Prayers for his family.

“ Another one of those men who shaped our young lives has left us. They get the name and position of "coach" and "teacher", but their love, personalities, and caring for us kids made them so much more. They gave us skills and knowledge, helped guide us into being men and women, and good people. Coach Waller has always and will always be with us in our memories and hearts, but also in everything we do and all that he helped us become in our lives.

“*Dave Waller will always be at a top of my mind when thinking about those who truly cared and supported me, giving words of encouragement and celebrating our wins. He was a terrific Athletic Director always joking , caring about the students and the athletes and representing Coal Grove and the greater surrounding area as a man that truly would make a positive impact other peoples lives. A few years after graduating, he traveled to watch a college football game at Glenville State University, to watch three former Coal Grove football players (William Kouns, Brian Topping and Chris Brammer). It meant the world to us and still does. Thank you brother Waller and it's my hopes to see you in heaven when the day comes. I'll always love and cherish the conversations we had while I was in High School and the ones thereafter. See you in heaven one day brother Waller. And may your family celebrate the man who made a positive impact on so many. Respectfully, William Kouns*

“ I started working at harbor healthcare in the activities department a few short months ago, around the same time Dave joined. David and I spent many hours together talking about his past coaching experiences and his baseball card collection. David was truly loved by everyone here at harbor healthcare. He was one of a kind and had the best heart despite what he was going through. Many times we would go to church here and praise the lord together. He will be missed by many.

“ Grew up watching Dave play all sports at Coal Grove. Coached with and against Dave in the 70's, along with playing softball for many years on the old Arts team. Although I haven't seen him for many years I cherish the fact that we were friends for well over 50 years. Certainly a class individual, and will be surely missed. Prayers for Carol, Michael and all of his family.
